**Essential Job Duties and Responsibilities:**

- Electrical interface of machines.
- Build electrical panels and control pendants.
- Troubleshoot and debug machinery.
- Communicate with Electrical Engineering.
- Must be able to work flexible schedules, occasional weekends.
- Ability to disassemble machinery, clean and reassemble in a timely matter.
- General knowledge of precision instruments and measuring devices.
- Travel as needed to customer facilities for installation or service.
- Performs other duties as assigned.

**Knowledge & Necessary Skills Required:**

- Ability to read and understand electrical schematics.
- Basic understanding of electricity.
- Operation of basic hand tools.
- Strong analytical skills.
- Ability to read ladder programming.
- Motivation for continuous improvement.
- Basic computer skills (Microsoft Office and Outlook).
- Adherence to company policies.

**Education & Qualifications Required:**

- High School Diploma or equivalent.
- Minimum 2-years of electrical experience with machinery and related equipment.
- Overhead crane and lift-truck license is a plus.
- General Troubleshooting Skills.

**Company Benefits:**

- Company Matched 401(k)
- Health, Life, Dental and Vision Insurance
- Life & AD&D Insurance
- Flexible Spending Account
- PTO Time
- Profit Sharing Program

- Wellness Reimbursement
